Founded in 1968, Serco wants to fundamentally transform the forestry and land clearing industry into a customer-driven experience, fueled through the needs and challenges of the global market.

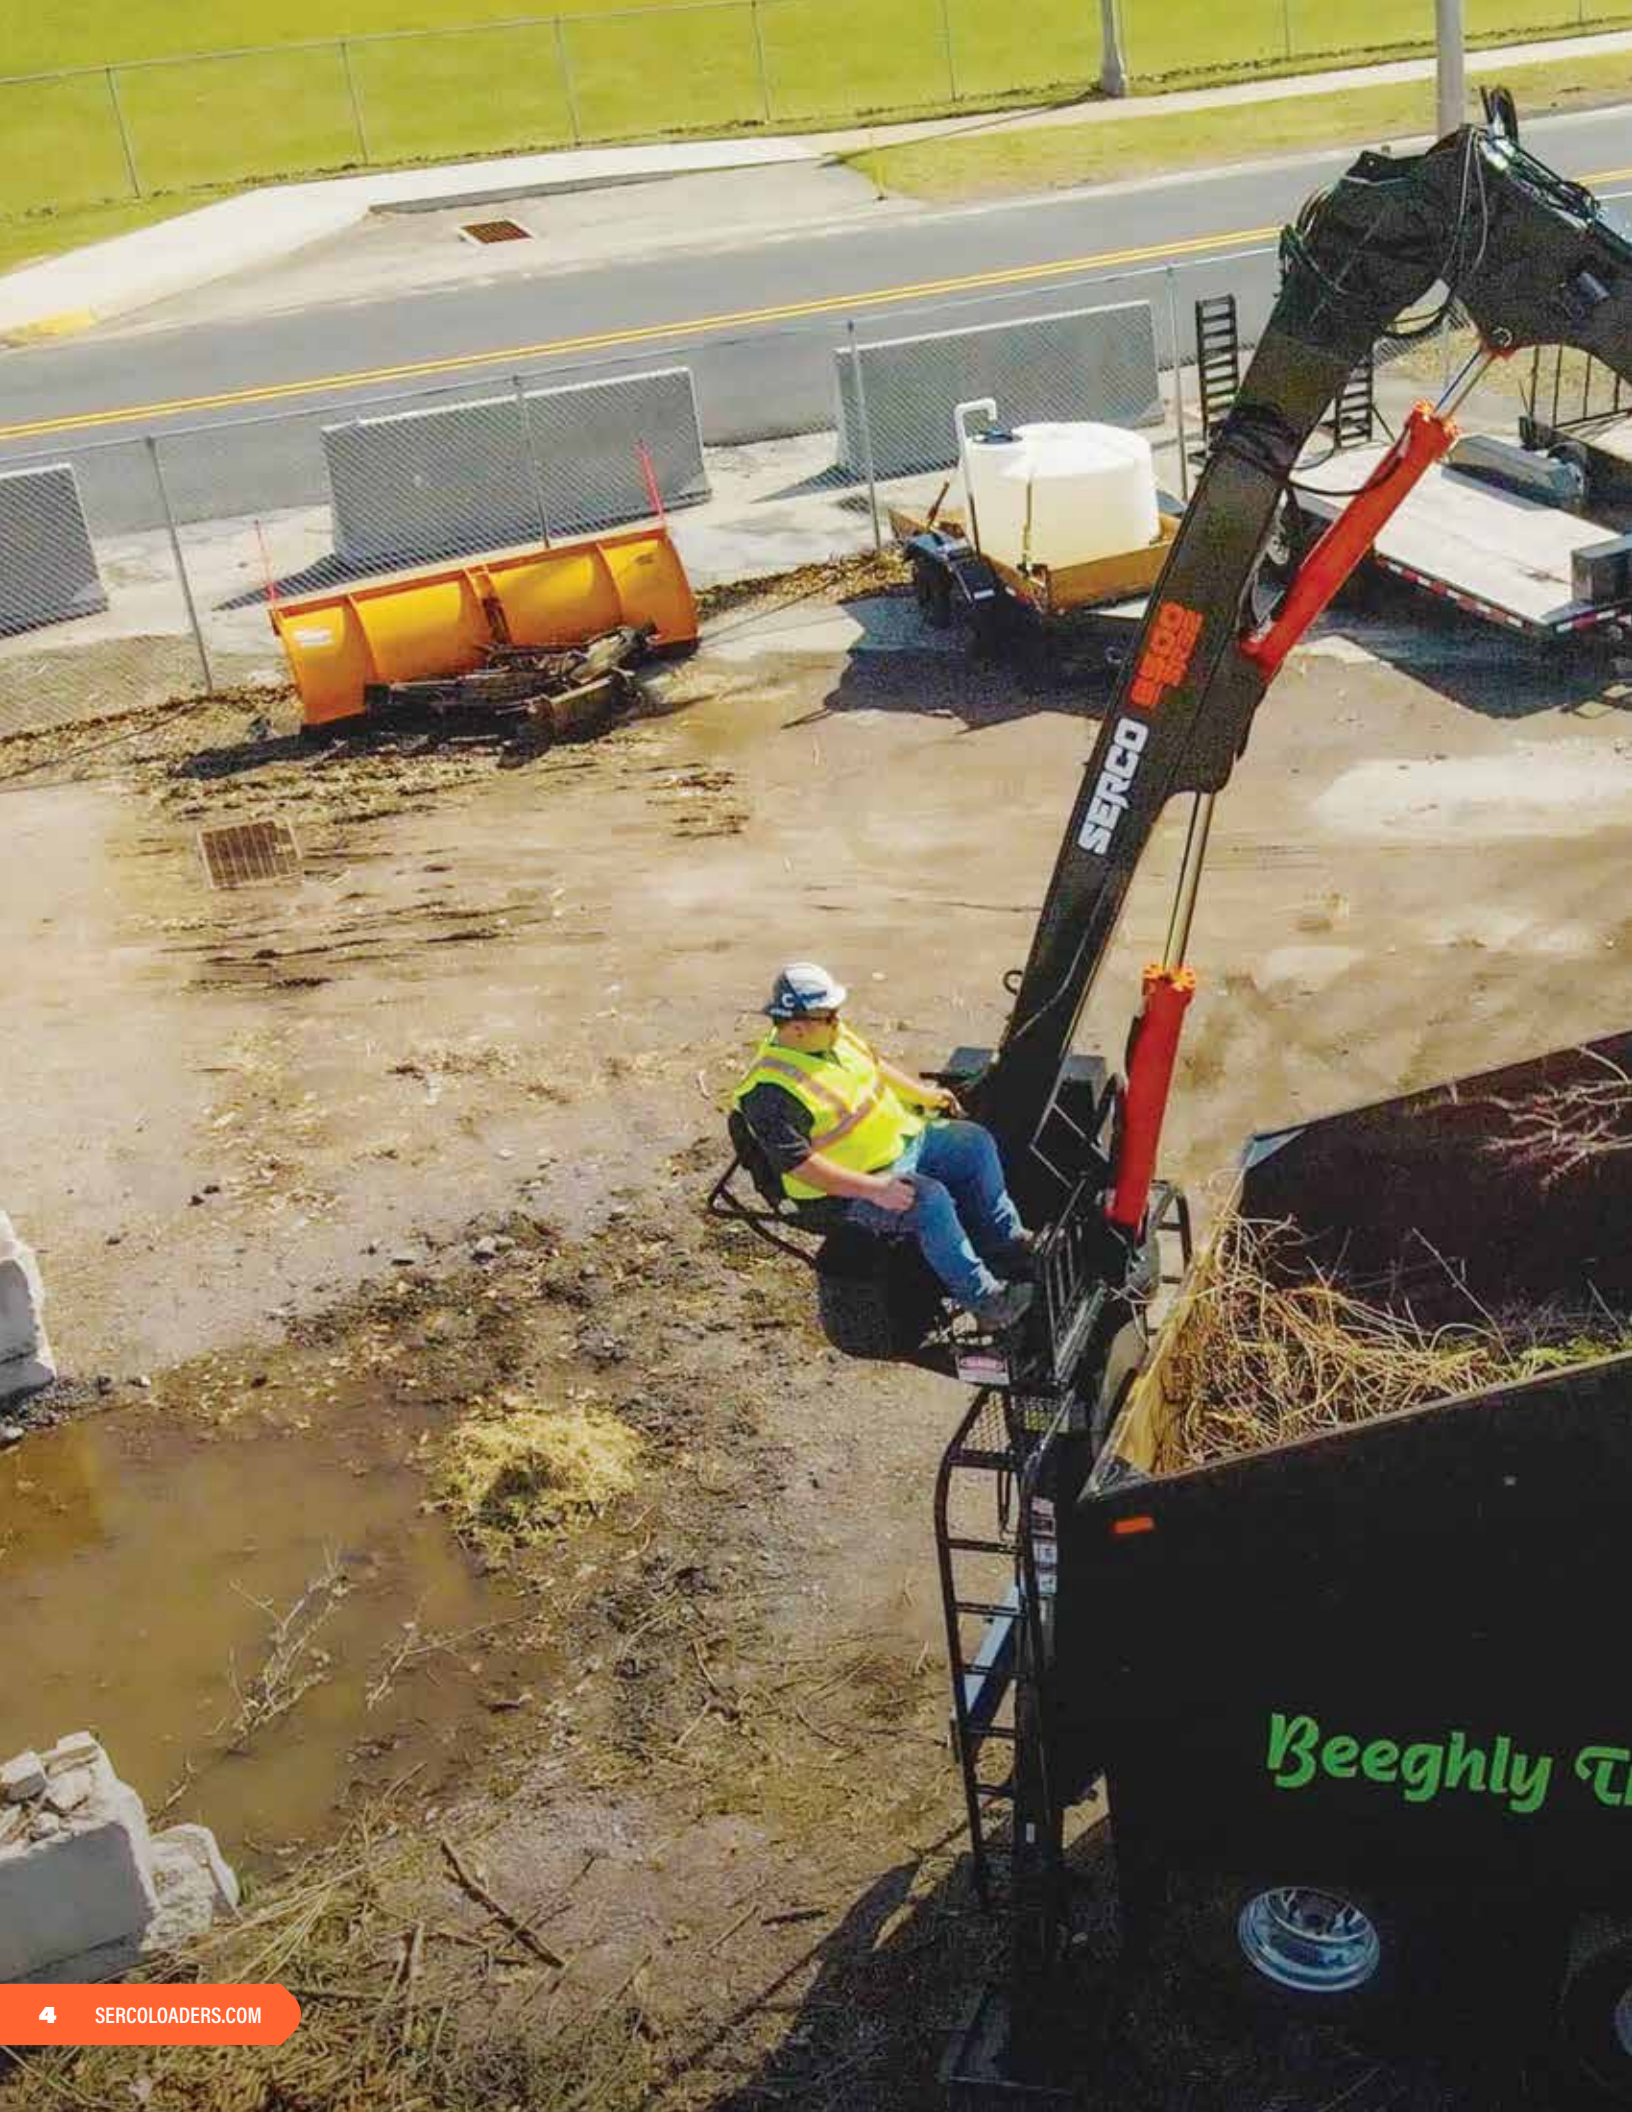

Serco is part of a group of companies offering attachment solutions in the material handling, forestry & land clearing, steel production & distribution, construction, and ag & light industrial industries.

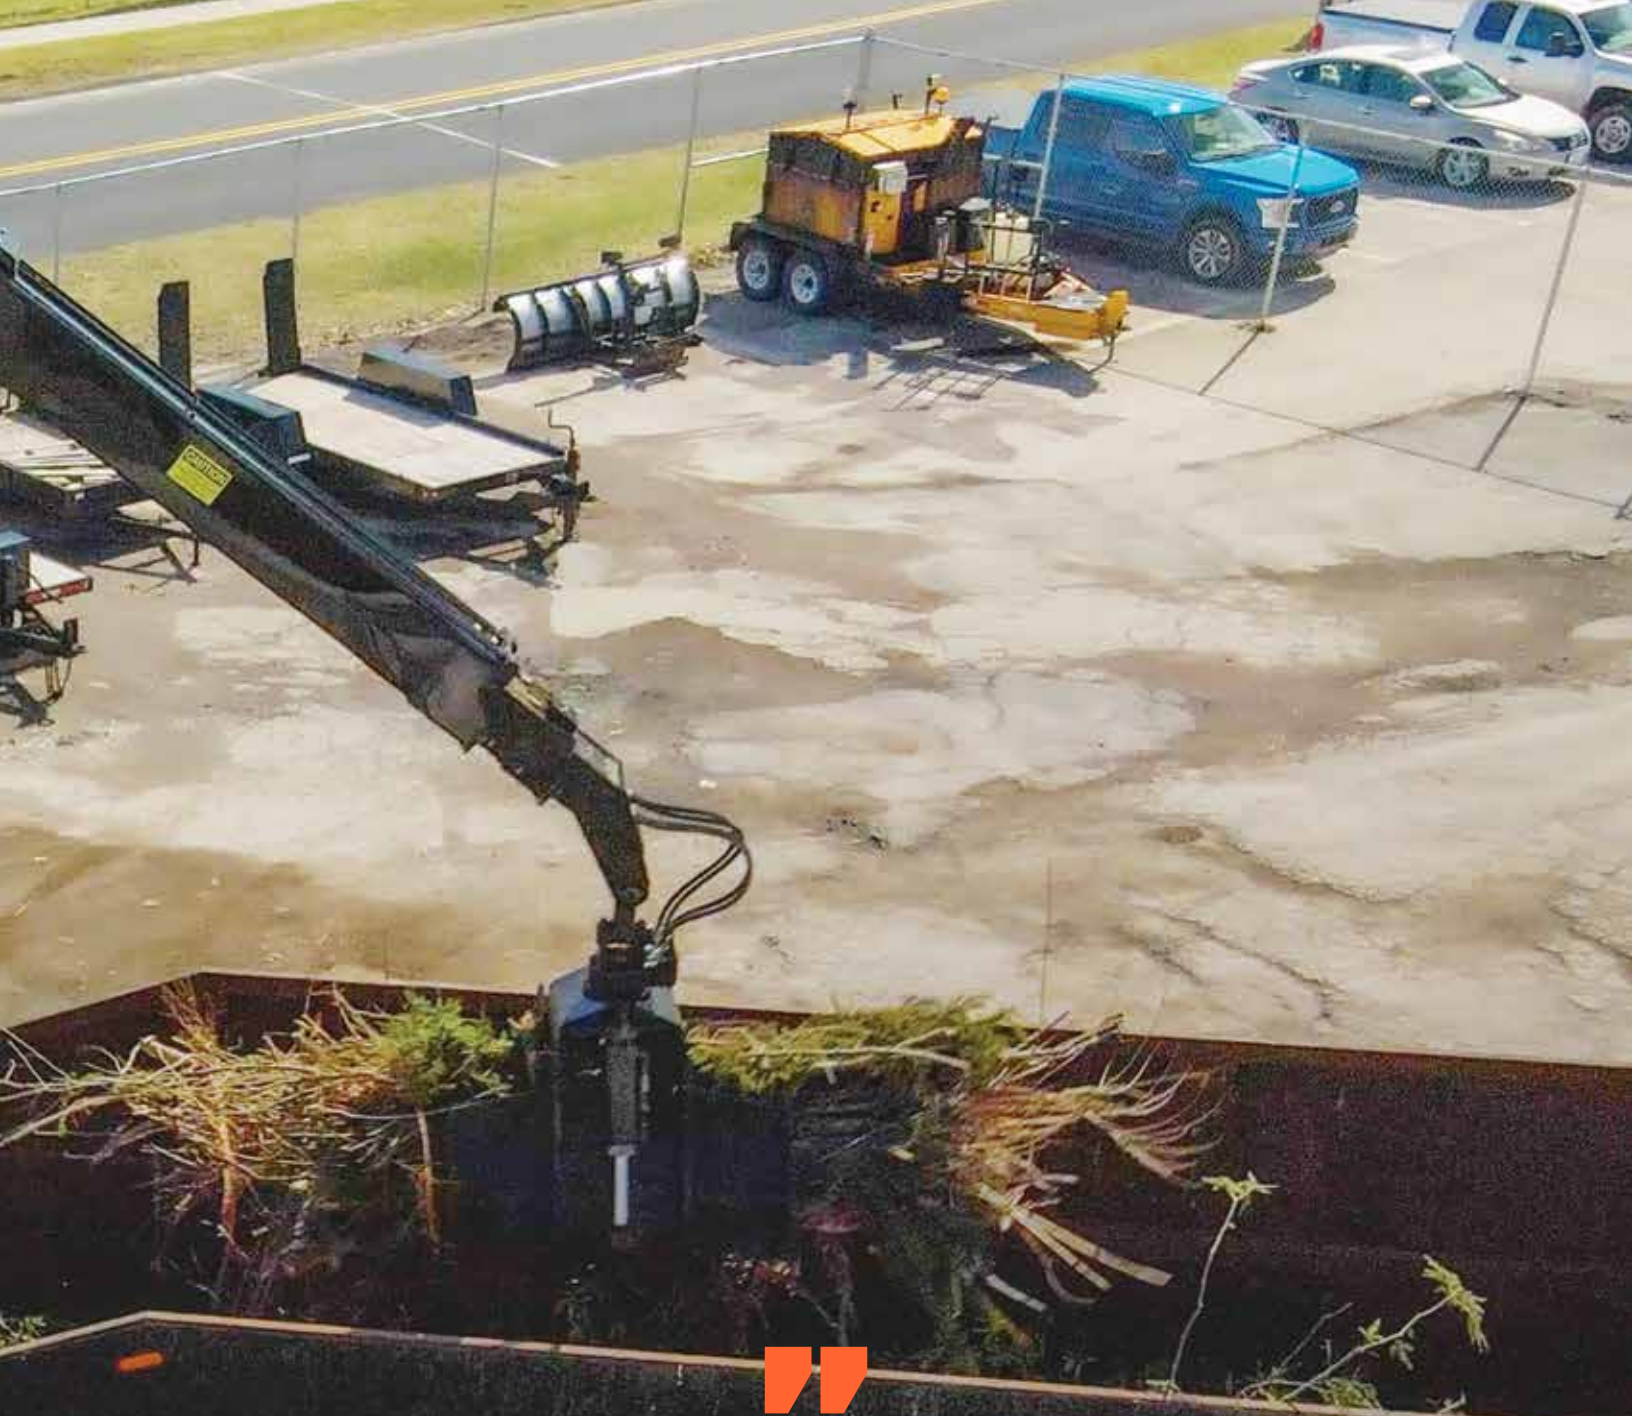

GRYB

FORESTRY & LAND CLEARING

Serco's storm cleanup products are part of the GRYB Forestry and Land Clearing division. Our solutions optimize your operations, setting the industry standards for performance and reliability. Engineered with precision and durability, they ensure efficient land management with optimal results.

In the storm cleanup industry, 90% of the business is based on the loaders. So having a product as reliable and with as little downtime as Serco's 8500-SR has a huge impact.

8500-SR32/34 SERIES

KNUCKLEBOOM LOADER

The Serco 8500-SR Series has set a new standard in the material handling industry with an industry leading 34 feet of reach available.

Combined with our industry leading cycle times, the 8500-SR Series has become the preferred choice for operators in the storm cleanup industry.

POWER

8,900 lbs lift capacity at 10 ft.

REACH

Longest reach in its class with 32' and 34' models available.

SPEED

Fastest boom extension time in its class at 3 seconds for full extension.

ENGINEERED HYDRAULICS

Standard 8500 base and controls. Low pressure, smooth controls provide precise control and smoothness in operating our loader while being able to make heavy lifts. Hoses routed internally in jib boom. Hydraulic oil cooler standard on all 8500-SR loaders.

SUPPORT

Serco proven quality, durability, service, and support.

PUMP

Compatible with tandem and triple pump setups.

OPTIONS

- Double Extenda-Boom options for 32 ft. and 34 ft. overall reach
- Hydraulic oil cooler standard
- Oversize stabilizer pads
- LED light kits
- Hydraulic tanks
- Serco Waste Collection Grapple recommended
- PTOs & hydraulic pumps available

EASE OF MAINTENANCE

- Simplified super reach boom design and jib extension with greaseless wear pads – less parts, less complexity.
- Access to internal and main components such as valves, motor, gearbox, and slider wear pads in jib is made easy for field technicians. Hoses easily accessible.
- Spare parts are easily accessible throughout our dealership network and/or always in stock at our Minnesota facility.

INDUSTRIES SERVED

The 8500-SR Series is the perfect solution for **storm and disaster cleanup**, applications

ROTATION

Continuous rotation on double-row turntable bearing. Rotation speed of 10 RPM.

LIFT CAPACITY

SR32: 8,900 @ 10ft
SR34: 8,900 @ 10ft

BOOM REACH

Longest in its class. 32' and 34' models available.
